REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 1-13, are considered allowable since when reading the claims in light of the specification, none of the references of record alone or in combination disclose or suggest the combination of limitations specified in the independent claims. As to claims 1-13, the prior art of record does not teach a plurality of correctors for latching with the pieces of reception timing that are outputted from the timing detector, a plurality of frequency components of the respective spread spectrum signals, the frequency components being produced by de-spreading and then polar-coordinates converting the spread spectrum signals, and correcting for an offset, and outputting resulting signals. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
